Efficient and ergonomic
material handling

Item No.: 89-10911

Drum and keg gripper 89-10911

Type of lifting object	Barrel
Weight (kg)	20
Maximum capacity (kg)	30
Serial number	5253
Function	Rotation, Tilt
Gripping technique	Vacuum
Optional control	PSH
Industry	Beverage industry
Noise Level (dB)	64

A lifting tool for drums, barrels and beer kegs

This drum gripper is customised to lift, tilt and rotate drums and kegs up to 30 kg. The lifting tool lifts the drums when a vacuum suction cup is placed in the middle of the load. The load can then be tilted, rotated endlessly and also locked at an angle.

Suitable for clean room environments

[The vacuum gripper](#) is made of highly polished steel that is easy to clean and therefore particularly suitable for clean room environments where hygiene is of great importance. We have a wide range of drum grippers that grip both from the side and from above and can handle different weights. [See the rest of our range of drum grippers here.](#)
