Bottle gripper 89-10638

Type of lifting object	Bottle
Weight (kg)	11
Maximum capacity (kg)	15
Industry	Beverage industry
Serial number	5078
Gripping technique	Mechanical
Optional control	Balancing

Bottle gripper- A lifting tool for bottles and jars

A well-utilised lifting tool in the beverage industry, our Bottle Grippers help our customers lift and move several bottles at a time. This particular unit is able to lift 24 bottles with a total weight of 15 kg. Just let us know how many bottles you need to lift, their dimensions and weight, and we'll construct a bottle gripper that is custom-made for your bottles.

Utilising a vacuum technology that quickly secures individual bottles in a vacuum-powered grip, the Bottle Gripper always has a steady hold of the bottles. And, the operator is spared heavy and monotonous lifting actions, reducing the risk of repetitive strain injury.
