Lifting tool for pharmaceuticals

This drum gripper for pharmaceuticals is customized to suit drums that are used in the pharmaceutical industry. The lifting tool's vacuum cup grip around the lid of the barrel and by using air pressure the drum can be lifted weightlessly from pallet to pallet. The handles are placed close together in order to fit both small and big hands.

Suitable for cleanroom standards

The exterior of the drum gripper is especially adapted to clean room standards. The machinery is hidden in a box of polished stainless steel that is easy to clean. The lifting tool's vacuum cup is removable which makes it easy to keep in a spotless condition.
