

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 1831

Gas bottle gripper 1831

Type of lifting object	Gas cylinder
Weight (kg)	35
Maximum capacity (kg)	12
Serial number	1831
Gripping technique	Vacuum
Optional control	Balancing

Lifting tools for gas cylinders

The gas cylinder gripper is tailor-made to lift gas cylinders weighing 12 kg from pallet to pallet. The lifting tool is small and flexible and fits in most workplaces. The gripper grips somewhere on the side of the gas cylinder with vacuum and then the cylinder can be lifted to the desired height. The operator can work quickly and efficiently, avoiding the heavy lifting of the past.

[The vacuum gripper](#) is controlled in a weightless state, which means that the operator can steer with his hands directly on the gas cylinder. This provides great precision and efficiency in work that was previously very complicated.
