Efficient and ergonomic
material handling

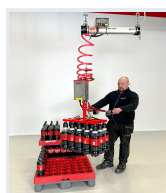

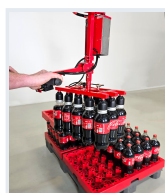

Item No.: 89-12380

Lifting tool for plastic bottles 89-12380

Type of lifting object	Bottle
Weight (kg)	75
Maximum capacity (kg)	60
Industry	Beverage industry
Serial number	A7234
Gripping technique	Mechanical
Optional control	PSH
Noise Level (dB)	60

Enhance your production efficiency and alleviate the strain of manual lifting with Lifts All's specialized lifting tool for plastic bottles. Designed for the beverage industry, this precision lifting tool efficiently handles both 2 liter and 1.5 liter PET bottles.

Features and functions

Lifts All's plastic bottle lifting tool is versatile and comes with interchangeable applications (lifting accessories) that allow you to lift either a smaller groups of PET bottles from the tray, or all of them simultaneously. The lifting tool can also lift the bottles in different configurations, complying to specific production requirements on the number of bottles need to be lifted at any one time. Interchangeable applications enable further customization of the lifting tool to accommodate different bottle sizes. This leads to fluid workflows, higher productivity, and cost-effectiveness as multiple lifting tools are no longer necessary

With this our lifting tool, you can smoothly transport bottles from pallets to conveyor with minimal effort and maximum output. This not only increases production speed but also minimizes the risk of work-related injuries and mishandling.

High-quality lifting tools

Lifts All's lifting tool for plastic bottles is made of high-quality steel to ensure long-lasting performance and reliability even under intense use. It's not only a reliable investment that optimizes your production process, but also a sustainable alternative.

Advantages of using a bottle lifting tool

- Lift plastic bottles safely from pallets to conveyor belts, minimizing the risk of dropping bottles.
- Optimize production flow for increased efficiency and cost savings.
- Reduce physical strain and improve the working environment for employees.

Employing a lifting tool for plastic bottles transforms your production process, creating a smoother and more efficient workflow. Reach out to us for detailed information or to explore customization options tailored to your specific needs.
