

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 89-10059

Lifting tool for pharmaceuticals 89-10059

Type of lifting object	Medicine
Weight (kg)	170
Maximum capacity (kg)	80
Industry	Pharmaceutical industry
Serial number	4510
Gripping technique	Hook, Mechanical
Optional control	PSH

Lifts All's lifting system for pharmaceutical substances is an example of a custom-designed table with two integrated lifts that can be used to handle pharmaceuticals in a cleanroom environment. The table is height-adjustable to ensure optimal ergonomics. The lifting devices are designed to handle 80 kg of pharmaceuticals, and the tabletop is high-gloss polished to 0.8 µm. All compressed air used to power the table is evacuated out of the cleanroom to keep the room uncontaminated. All equipment is designed so that you can clean the tools several times a day. The lifting solutions are provided as a turnkey project by Lifts All.
