At Lifts All, you Lifts All a wide range of hooks that make your lifting tasks easier, safer, and more ergonomic. Our hooks are designed to accommodate various types of loads and work environments—from simple standard solutions to custom variants specific industries. The hooks we offer that are designed to attach to the Basic or Classic B-M feature a quick-release coupling that makes it fast and easy to switch between, for example, a hook and a vacuum cup.

Further information

Basic hook

The Basic hook is easily attached to the Basic gripper and can lift cans, buckets and bags up to 50 kg. It is wider and easier to use than Basic's own built-in hook. The hook is easily operated with the up and down buttons on the lifting tool.

Hook for pallets

The Basic pallets Pallet Hook can lift most pallets up to 30 kilograms. For example, it can lift EU pallets, standard pallets, EUR and pallets pallets (so-called SJ pallets). The hook is attached to the Basic lifting tool with a simple click. The pallet is ready to be lifted, without a pallet truck!

Carabiner for Basic

100 mm carabiner with bayonet fitting for Basic lifting tools. Can be used to lift slings, straps, or cable ties that need to be securely attached to the hook. The carabiner can handle up to 50 kg.

Safety hook with Basic coupling

This safety hook can be used safely and securely to lift items such as slings. Simply attach it to the Basic lifting tool using the quick-release coupling. It can be used with various types of loads weighing up to 50 kg, or up to 100 kg when attached to a Classic B-M.
