Maximum capacity (kg)	110
Serial number	5913
Gripping technique	Vacuum
Optional control	PSH

Vacuum Gripper for printer chassies

Lifts All's gripper for printer chassies is used to lift braille printers up to 110 kg. The gripper runs on dry compressed air that makes the load feel weightless. The vacuum cups grips the chassies from the side, and makes it possible to move the load weightlessly up, down and sideways, without effort from the operator. The operator can avoid heavy lifting that can cause strain injuries, while the employer sees a decrease in sick leave in the workplace.
