

LIFT WITH EASE

Efficient and ergonomic
material handling

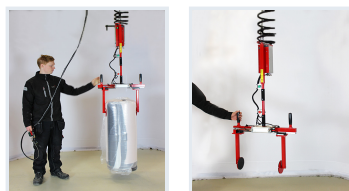

Item No.: 89-11892

Mattress gripper 89-11892

Type of lifting object	Furniture
Weight (kg)	14
Industry	Wood and furniture industry
Serial number	6016
Optional control	PSH
Gripping technique	Mechanical

Lifts All's mattress gripper is customized for lifting rolled up mattresses from a horizontal position and placing them in a vertical position in cardboard boxes. Lifting heavy mattresses up high can be demanding, with the mattress gripper it's easy! The bolsters can be lifted as high up as 2.4 meters while the operator remains in control, by using a free-hanging ProSpeed handle device.

Adjustable grip

It's easy to adjust grip lifting tool's grip mattresses, regardless of size. With a press of the green "on" button, the lifting tool fully closes its "arms" and secures a firm grip. The red off button works in stages; with quick presses, the arms release their grip step by step. By holding down the button, the tool releases the load completely. This ensures that the boxes are not damaged when the lift releases its grip on the mattresses.
