| Weight (kg)            | 28     |
| Maximum capacity (kg)  | 100    |
| Gripping technique     | magnet |

### Lifting tools for pipes

The pipe gripper can lift pipes of various sizes and weights as long as they have a smooth and clean surface. The lifting tool consists of strong magnets that do not lose their magnetic properties in the event of a compressed air failure, making it a very safe lifting device. The magnets are adjustable to lift larger pipes weighing up to 100 kg.
