

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 89-10276

Roll gripper 89-10531

Type of lifting object	Roll
Weight (kg)	9
Maximum capacity (kg)	25
Serial number	4992
Gripping technique	Mechanical
Optional control	Balancing

The roll gripper is an ergonomically-designed lifting tool that can lift rolls of up to 25 kg. This particular gripper has been designed to quickly grip horizontal rolls for upright placements in boxes. The gripper is inserted into the inner core of the roll and grips by expanding and holding the roll in place (this a common design request from our customers). Since the gripper feels weightless to the user, they can steer the gripper into the roll much quicker and with greater precision - saving time and effort.
