

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 89-10375

Sheet metal gripper 89-10375

Type of lifting object	Metal
Weight (kg)	7.2
Industry	Metal industry
Maximum capacity (kg)	8
Gripping technique	Mechanical
Optional control	Balancing

Lifting tools for sheet metal

Lifting sheet metal from pallets to conveyor belts no longer needs to be done manually! The handy sheet metal gripper easily lifts sheet metal weighing up to 8 kg. The lifting tool is handled in a weightless state, which means that the operator can control the load and the gripper with their hands, but without the heavy weight. This makes handling the sheet metal both quick and easy and prevents wear and tear and work-related injuries that are common with manual lifting.
