

LIFT WITH EASE

Efficient and ergonomic
material handling

Item No.: 89-11857

Windshield gripper 89-11857

Type of lifting object	Automotive component, Glass
Weight (kg)	40
Maximum capacity (kg)	100
Industry	Automotive industry
Serial number	3108
Function	Tilt
Gripping technique	Vacuum
Optional control	PSH

Lifting tools for glass

With the Glass Gripper, you can carry a 100 kg pane of glass all by yourself – lifting it directly off the stand and placing it onto a car or bus without any hassle. You can also tilt and turn the glass in mid-air and lock it into a pre-specified position. Changing windscreens can now be done by just one person.

Safety and energy efficient

We guarantee that our Glass Grippers will securely grip the glass pane. The operator will be able to work at a normal tempo without gripper losing its grip, and without needing to carry the weight of the glass by themselves. Compared to other lifting tools on the market, our Glass Gripper is a very energy-efficient tool, only consuming energy when it is in use.
